Dear Patent & Trademark Office Representative:

I am writing to urge you to support *AAVS's Request for Re-Examination of Patent No. 6,924,413.*

I am passionately opposed to issuing patents on rabbits and ALL animals. Animals are sentient beings- NOT machines; *they are fully capable of experiencing pain.*

Please consider the ethical ramifications of issuing a patent that would be responsible for the physical suffering of billions upon billions of sentient creatures. I respectfully request that you take immediate action to stop the precedent of issuing patents on sentient beings.

Submitted with sincerity  
and the hope for compassion,

A handwritten signature in cursive script that reads "Beth Jones".

Beth Jones
